

# 2024 Optical Cable Prices

## Article Overview

In 2024, optical cable prices, particularly for OPGW cables, ranged from approximately RMB 12,000 to RMB 30,000 per kilometer, influenced by raw material costs, demand, and technological advancements.

### Price Overview

In 2024, the cost of optical cables, especially OPGW (Optical Ground Wire) cables, was significantly affected by fluctuations in raw materials such as aluminum and steel, which are key components of these cables. Supply chain disruptions and geopolitical tensions contributed to price volatility, particularly in the early part of the year. Standard OPGW cables were priced between RMB 12,000 and RMB 30,000 per kilometer, depending on specifications and fiber counts .

### Factors Influencing Prices

**Raw Material Costs:** Increases in aluminum or steel prices directly raised the cost of optical cables. Reduced supply from major producers could lead to higher cable prices . **Demand Dynamics:** The accelerating shift toward digital communication, smart grids, and renewable energy infrastructure drove higher demand for fiber optic cables, particularly high-specification cables with greater fiber counts, which pushed prices upward . **Technological Advancements:** Manufacturers adopted improved insulation materials and enhanced optical fibers, which increased upfront costs but offered long-term savings through durability and reduced maintenance . **Regulatory and Environmental Factors:** Compliance with environmental standards and sustainable manufacturing practices added to production costs, influencing pricing...
