

AI Server Production Ranking

Overview

(US), Hewlett Packard Enterprise Development LP (US), Lenovo (Hong Kong), Huawei Technologies Co. (China), and IBM (US) are the major players in the AI server market. Artificial Intelligence (AI) server manufacturers have experienced surging demand as data center operators require significantly more computing power than before the advent of ChatGPT and other Generative Artificial Intelligence (Gen AI) tools. 88 billion in 2024 and is projected to reach USD 837. The North America AI server market accounted. According to a research report published by Spherical Insights & Consulting, Global AI Server Market Size Is Projected To Grow From USD 142. 3 Billion By 2035, At A CAGR Of 40. 06% During The Forecast Period 2025–2035. For data center operators and enterprises investing billions in AI infrastructure, securing the optimal solution is critical yet increasingly complex. Projected to reach USD. AI server ODM market reshaped by CSP direct partnerships, with TOP4 vendors leading growth. Component volatility and liquid cooling adoption.
