

AI Server Provider Ranking

Overview

To bring clarity to the market, ABI Research's AI Server OEMs Competitive Ranking assesses eight global AI server companies. We evaluated server manufacturers based on performance, partner channels, workload optimization, environmental impact, future-readiness, and other. Artificial Intelligence (AI) server manufacturers have experienced surging demand as data center operators require significantly more computing power than before the advent of ChatGPT and other Generative Artificial Intelligence (Gen AI) tools. Enterprises are investing billions of dollars in cloud. The global AI server market is expected to be valued at USD 142. 83 million by 2030 and grow at a CAGR of 34. (US), Hewlett Packard Enterprise Development LP (US), Lenovo (Hong Kong), Huawei Technologies Co. The AI revolution, driven by generative AI tools and LLMs, has created an urgent demand for high-performance AI servers. Projected to reach USD. According to a research report published by Spherical Insights & Consulting, Global AI Server Market Size Is Projected To Grow From USD 142. 06% During The Forecast Period 2025–2035.
