

Cable tray and well support price

Article Overview

Cable tray prices range from \$0.80 to \$100 per meter depending on material, type, and installation complexity, while well support brackets vary based on load and design.

Cable Tray Pricing

Cable tray costs vary significantly depending on material, type, and application:

- Steel trays: \$5–\$25 per meter, widely used for general-purpose installations due to strength and affordability .
- Aluminum trays: \$6–\$30 per meter, lightweight and corrosion-resistant, suitable for outdoor or industrial environments .
- Fiberglass (FRP/GRP) trays: \$10–\$50 per meter, ideal for aggressive environments where chemical resistance is required .
- Stainless steel trays: \$20–\$100 per meter, highly durable and corrosion-resistant, used in heavy-duty or critical applications . Tray types also affect pricing:
 - Ladder trays: Open design, economical for high-density cable installations, allow ventilation and easy access .
 - Solid-bottom trays: Provide maximum cable protection, slightly higher cost due to material usage . B2B bulk purchases can reduce per-unit costs, with prices ranging from \$0.80 to over \$76 depending on volume and supplier . B2C retail prices typically range from \$15 to \$34 per unit .
