

China Unicom Optical Cable Reel Price

Article Overview

China Unicom optical cable reels typically range from \$150 to \$500 per reel depending on specifications, materials, and fiber capacity.

Price Overview

The cost of optical cable reels varies based on reel type, material, and fiber compatibility. Standard field-deployable aluminum reels suitable for fiber optics are priced around \$150–\$300 for smaller reels and can reach \$400–\$500 for larger, heavy-duty models designed for long-distance deployments or high-capacity fiber cables. Pre-terminated fiber optic cable reels, which include protective features for single-mode fibers, may also fall within this range depending on length and specifications.

Factors Affecting Price

- **Material:** Aluminum reels are lightweight and corrosion-resistant, while high-impact polystyrene reels offer strong protection for sensitive fibers.
- **Capacity:** Reels designed for longer fiber lengths or multiple strands cost more due to increased material and manufacturing complexity.
- **Compliance and Standards:** Reels compatible with TIA-568, ISO/IEC, and IEC 61300-3-35 standards may carry a premium due to quality assurance and reduced signal loss.
- **Features:** Ergonomic handles, smooth winding mechanisms, and anti-kink designs improve usability and durability, influencing the price.
