

Cost of Structured Cabling Trays

Article Overview

Structured cabling trays typically range from \$5 to \$50 per meter, depending on material, design, and environmental requirements.

Pricing by Material

- **Steel Trays:** The most common and cost-effective option, steel trays generally cost \$5 to \$25 per meter. They are durable and suitable for most residential, commercial, and industrial installations .
- **Aluminum Trays:** Lightweight and corrosion-resistant, aluminum trays are ideal for outdoor or humid environments, with prices ranging from \$6 to \$30 per meter .
- **FRP (Fiberglass Reinforced Plastic) Trays:** Designed for aggressive or chemically harsh environments, FRP trays cost \$10 to \$50 per meter, offering long-term durability .
- **Stainless Steel Trays:** The most durable and corrosion-resistant, stainless steel trays are used in high-demand sectors like pharmaceuticals, oil & gas, and heavy manufacturing, with prices at the higher end of the spectrum .

Pricing by Design and Duty

- **Ladder Trays:** Open designs suitable for heavy power cables, providing ventilation and easy access, generally fall within the standard material price ranges .
- **Solid Bottom or Perforated Trays:** Offer additional protection for sensitive cables and may slightly increase costs due to material and manufacturing complexity .
- **Wire Mesh/Basket Trays:** Lightweight and ideal for data or small cables, these are often the most affordable option and can reduce installation time and labor costs
