

Delivery time for 47U hot aisle in the computer room

Article Overview

Delivery times for 47U hot aisle server racks vary by supplier, customization, and shipping method, typically ranging from a few days for standard stock to several weeks for custom orders.

Standard vs. Custom Racks

- Standard 47U server racks (e.g., 800mm wide, 1200mm deep) are often available for immediate or next-day shipping from suppliers like Comms Express, which offers free delivery for online orders .
- Customized racks for hot aisle containment, including specific cable routing, door configurations, or load capacities, usually require negotiation with the supplier and may take 2-6 weeks depending on production schedules and shipping distance .

Factors Affecting Delivery Time

- Supplier Location: Domestic suppliers generally provide faster delivery than international manufacturers. For example, racks from China may require additional shipping time and customs clearance .
- Customization Level: Modifications such as tool-free doors, plinths, or special grounding studs can extend lead times .
- Quantity Ordered: Large orders or multiple units may require batch production, affecting delivery schedules .
- Shipping Method: Standard freight vs. expedited shipping can significantly change delivery times. Some suppliers offer free standard delivery, while express shipping i...
