

Does ABB make industrial switches

Article Overview

Yes, ABB manufactures a wide range of industrial switches for various applications.

ABB offers an extensive portfolio of industrial switches designed for safe and efficient control of electrical systems in industrial environments . These switches are part of ABB's Low Voltage Products range, which ensures reliable power distribution and management across multiple industries . ABB's industrial switches include series such as CP1, OS, OH, OT16xxx160, and configurations like SPST-NO, SPST-NC, DPST-NO, and DPST-NC, catering to different operational requirements .

Applications and Features

ABB industrial switches are used in automation, process control, and machinery operations, providing robust performance in demanding industrial settings . They are designed to enhance safety, reliability, and efficiency, and are compatible with various control systems and electrical panels. These switches are widely available through distributors like Newark Electronics, Mouser, and Farnell, which provide datasheets, technical support, and fast delivery options .

Summary

In summary, ABB not only produces industrial switches but also offers a diverse range of models and series suitable for different industrial applications, ensuring high performance, safety, and operational reliability .

Switch ranges

ABB wiring accessories are offered in numerous design series, in a variety of shapes, designs, color combinations and materials to

ABB Switches 2026: Top Picks for Industrial Power

The ABB switch portfolio is currently dominated by products that support energy efficiency and industrial automation.

Low Voltage Products | Low Voltage Products | ABB

ABB provides a full range of low voltage solutions to connect, protect, control and measure a wide range of electrical

ABB Drives | Variable speed drives, drive systems and packages | ABB

ABB Drives is a global technology leader serving industries, infrastructure and machine builders with world-class drives, drive

Products | ABB Electrification U.S.

Panelboards Softstarters Switchboards Switches & Disconnects Switchgear Transformers - Low Voltage

ABB Switch Control Systems

ABB switch control systems offer compact, modular solutions for electrical monitoring, fault indication, and load control in industrial

Automation | ABB

Automation solutions that enable large and complex industrial infrastructures that deliver essential resources, from energy and

Enclosed switches | Products | ABB

Whether you need a main disconnect or a safety switch, you can always find a high quality product that

ABB Distributed Control Systems

ABB Ability System 800xA A modern collaborative process automation platform for distributed process control (DCS), electrical

Power Converters and Controllers

Power Converters and Controllers ABB offers a comprehensive range of power converters and controllers for use in a wide range of

Switchgear | ABB Electrification U.S.

ABB Switchgear and GE Industrial Switchgear products include options for low voltage and medium voltage. Comprised of electrical

Programmable logic controllers | ABB

AC500 PLC platform offers scalable performance for applications, supporting high availability, harsh environments, monitoring,

Allen-Bradley Products | Allen-Bradley

Allen Bradley industrial automation components, integrated control and information solutions from Rockwell Automation make you as

ABB Switches

This collection includes everything from basic on/off toggles and selector switches to industrial pushbuttons and emergency-stop

History of ABB | ABB

In its more than 140-year history, ABB has grown from a pair of start-ups into a global technology leader with operations in more than

ABB in the United States

ABB is a pioneering technology leader that works closely with utility, industry, transportation

ABB Group | Helping industries outrun – leaner and cleaner | ABB

Global technology leader in electrification and automation. ABB helps industries run at high performance, while becoming more

PLC Automation | ABB

ABB's AC500 PLC is a proven technology for industries, infrastructure and machine builders, enabling advanced solutions in

Automatic transfer switches

Automatic switching between power sources ABB offers automatic transfer switches (ATS), from 40 to 1600 Amperes in range. They

Control switches, pushbuttons and indicator lights

The use of switches, pushbuttons and indicator lights enables switching, controlling and electrical consumer indications from a
