## Article Overview

EB-LINK fiber optic patch cords are high-quality, versatile cables used for connecting network devices, available in various connector types, fiber modes, and lengths.

### Overview

EB-LINK fiber optic patch cords, also known as fiber optic jumpers, are designed to connect devices in racks or between network components, ensuring reliable high-speed data transmission for video, voice, and other data services . They are manufactured by ShenZhen EB-LINK Technology Co., Ltd, a leading provider of fiber optic equipment based in Shenzhen, China .

### Key Features

- Connector Types: Available in LC, SC, ST, MTP/MPO, and E2000® connectors to suit different network requirements .
- Fiber Modes: Supports single-mode (OS1/OS2) and multi-mode (OM3/OM4) fibers for various transmission distances and bandwidths .
- Lengths: Offered in standard lengths (e.g., 1m, 3m, 25m) and can be customized according to project needs .
- Performance: Low insertion loss and low return loss ensure high-quality signal transmission .
- Flexibility: Highly flexible cables suitable for tight spaces and rack-to-rack connections .
- Durability: Secondary coating allows easy stripping, and color-coded primary coatings help with identification ....
