

Fiber Optic Cable Tax Control Code

Article Overview

Fiber optic cables are generally classified under IRS asset class 48.42 for one-way communication services (7-year property) or as 15-year property for two-way communication services, with depreciation calculated under §168 of the Internal Revenue Code.

IRS Classification

Fiber optic cables used in cable systems are treated as tangible property for depreciation purposes under Sections 167 and 168 of the Internal Revenue Code. The IRS provides a safe harbor method for determining the unit of property, which includes the fiber optic cable and associated nodes and trunk lines used in a cable distribution system .

- One-way communication services (e.g., traditional cable TV) assign the fiber optic cable to asset class 48.42, "CATV-Subscriber Connection and Distribution Systems", classified as 7-year property under §168(e)(1) with a recovery period of 7 years under the General Depreciation System (GDS) and 10 years under the Alternative Depreciation System (ADS), .
- Two-way communication services (e.g., internet or VOIP) classify the cable as 15-year property under §168(e)(3)(E)(ii), with a recovery period of 15 years under GDS and 24 years under ADS .

Depreciation Methods

The IRS allows depreciation using the Modified Accelerated Cost Recovery System (...)
