

Fiber Optic Connector Testing in Democratic Republic of Congo

Article Overview

Several companies in the DRC provide fiber optic testing and network services, including Fibre Solutions SARL, Espoir Multi Services (EMS), Global Broadband Solution (GBS), Access Solutions SARL, and SOCOF.

Key Companies

Fibre Solutions SARL Fibre Solutions SARL is a leading Congolese company specializing in fiber optics across the DRC. They offer installation, management, maintenance, and testing of fiber optic networks using modern test and measurement equipment. With over 15 years of experience, they are recognized as a key operator in the fiber optic sector in the country . **Espoir Multi Services (EMS)** Based in Kinshasa, EMS focuses on telecommunications infrastructure deployment, including fiber optics and mobile networks. They provide advanced services in fiber optic installation and network testing, supporting both fixed and mobile telecom projects . **Global Broadband Solution (GBS)** GBS offers telecommunications solutions for large companies, SMEs, and individuals, with a strong focus on fiber optics. They provide end-to-end fiber optic connectivity, including testing and maintenance, and ensure reliable internet access from the DRC to Europe. Their Kinshasa team includes highly qualified engineers and technicians for on-site support . **Access Solutions SARL** Access Solutions SARL operates in fiber optics, IT, and networking in the DRC. While specific testing services are not detailed, their expertise in fiber optic infrastructure and networking suggests they provide connector testing and related services . **SOCOF (Societe Congolaise de Fibre Optique)** SOCOF is a state-owned company tha...
