

Fiber optic connector plug-in price

Article Overview

Fiber optic connector plugs typically range from €3 to €20 per unit, depending on type, material, and supplier.

Price Overview

- Basic connectors such as simple LC or SC plugs can start around €3 per unit for standard plastic or basic assemblies at suppliers like Reichelt .
- Specialized or branded connectors, such as the Panduit LC Simplex 125µm plug, are priced higher, often in the range of €10–€20 per unit, depending on specifications and availability .
- Bulk orders or higher quantities may reduce the per-unit cost, and suppliers like Mouser allow filtering prices based on quantity .

Factors Affecting Price

- Connector Type: LC, SC, FC, and ST connectors vary in complexity. FC connectors are threaded and designed for rugged environments, often costing more than push-pull SC or LC connectors .
- Material: Connectors can be made from plastic, plastic-glass hybrids, or pure glass fiber. Pure glass connectors generally have higher precision and cost .
- Mode Compatibility: Single-mode connectors are usually more expensive than multimode due to tighter tolerances and lower insertion loss requirements .
- Supplier and Brand: Well-known brands like Panduit or LAPP may charge a premium compared to generic or bulk suppliers .
- Accessories and Kits: Some connectors come with cleaver sets, guides, or assembly kits, which can add to the cost
