

Fire-resistant Stainless Steel Cable Tray Manufacturers

Article Overview

Leading manufacturers of fire-resistant stainless steel cable trays include ATA, Meka Pro, NewReach, and EAE Group, offering certified, heavy-duty, and corrosion-resistant solutions for industrial and high-risk fire applications.

ATA Stainless Steel Cable Trays

ATA specializes in custom stainless steel fabrication, providing cable trays designed for long-distance routing in petrochemical, coastal, and outdoor industrial projects. Their trays feature fire-retardant structures and materials, high corrosion resistance, and strong load-bearing capacity. They comply with international standards such as ISO 14692 and ASTM A240, and are suitable for humid, high-salt, and high-risk fire environments. ATA also offers custom bending, passivation treatment, waterproof gaskets, and reinforced frames for heavy-duty applications, ensuring durability and safety in industrial installations .

Meka Pro Fire-Resistant Systems

Meka Pro manufactures fire-resistant cable support systems tested according to EN 1363-1, ensuring that electricity supply remains functional during fire incidents. Their products are fire-tested with installed cables, not just simulated, and are designed to withstand load without collapsing, maintaining clear rescue routes. Meka Pro emphasizes the use of non-toxic, fire-resistant materials and compliance with international standards, making them suitable for critical electrical installations
