

How much does it cost to build a distribution box on a construction site

Article Overview

Installing a distribution box typically costs between \$1,200 and \$6,000, depending on amperage, location, and installation complexity.

Typical Cost Ranges

- Indoor 100-125A panel: \$1,200-\$2,500 including parts and labor .
- Outdoor 200A panel with meter socket: \$3,000-\$6,000 including parts, labor, and permits .
- Labor: Electrician rates usually range from \$75-\$120 per hour, with total hours varying from 6-18 depending on project scope, accessibility, and wiring complexity .

Factors Affecting Cost

- Panel Amperage: Higher amperage panels require more expensive breakers and wiring.
- Location: Outdoor installations need weatherproof enclosures and may require additional conduit work, increasing labor and material costs .
- Wiring Complexity: Longer runs, rerouting, or new service drops add to labor and material expenses .
- Permits and Inspections: Local regulations can add 5-15% to the total cost, especially in urban areas .
- Structural Work: If the site requires mounting on steel, concrete foundations, or other supports, costs increase
