

How much should a newly built electrical distribution box cost

Overview

New panel box pricing typically ranges from about \$150 to \$1,900 for parts and labor, with most residential projects landing between \$450 and \$1,500 depending on amp rating, gauge of wiring, and labor complexity. The cost of a new panel box depends on the box size, meter/branch requirements, enclosure type, and labor for installation. This article breaks down typical price ranges and driving factors to help homeowners and contractors budget effectively. Typical estimates cover panel upgrades. Purchasing a new electrical box typically costs between \$25 and \$200 for common single-gang devices, with higher prices for upgraded metal, weatherproof, or specialty boxes. These boxes are frequently used in residential construction where non-metallic sheathed cable (Romex) is utilized, offering inherent.
