

How to replace the battery in a power meter

Overview

Press and hold the power/set/ok button on the front of the meter for at least 2 seconds. Put the battery door back in place and snap it closed. Look for the name of your product to find the relevant instructions or videos below. Having trouble with the guide?

Give the author +30 points! 6 other people completed this. We recommend avoiding batteries with a bitter coating as it has been shown in tests to be non-conductive which can lead to connection problems or dropouts with your 4iiii power meter. NON-DRIVE SIDE Threaded Cap: Twist the cap counterclockwise to remove it. Learn how to correctly change your.
