

How to run the cables out of the distribution box

Overview

Wiring Direction: Wiring between the main circuit breaker and each branch circuit breaker in the box generally goes on the left, and the wiring out of the distribution box generally goes on the right. **Binding Requirements:** The wires should be bound with plastic ties. **Wire color:** The neutral wire is blue, and the color of the phase wire (A phase is yellow, B phase is green, and C phase is red). Welcome to our channel @Electricalgenius In this video, we'll take you through a detailed step-by-step guide on wiring a home distribution DB (Distribution Board) box. A distribution box is the heart of any electrical system. It takes the incoming power and safely distributes it to different circuits throughout your building. Whether it is residential buildings, commercial facilities or industrial sites, the.
