

Inquiries about Suriname fiber optic sensors

Article Overview

Suriname has a growing fiber optic sensor market supported by local companies, distributed sensing technologies, and international suppliers.

Local Companies and Providers

ABC Fiber NV is a key Surinamese company specializing in optical fiber deployment, including telecommunication and energy connections. Founded in 2014, ABC Fiber NV offers installation, maintenance, and renovation of fiber optic networks, collaborating with local and international partners to deliver high-quality services with a focus on speed, reliability, and flexibility . The company supports turnkey projects and civil works related to telecommunications and energy infrastructure.

Distributed Fiber Optic Sensor Market

The distributed fiber optic sensor market in Suriname is expanding, with applications in temperature, vibration, and acoustic monitoring. Distributed sensing technologies, such as DTS (Distributed Temperature Sensing), DAS (Distributed Acoustic Sensing), and DVS (Distributed Vibration Sensing), are used for industrial, civil engineering, and energy monitoring applications . These systems allow continuous monitoring over long distances, making them suitable for pipelines, power lines, and infrastructure monitoring.
