

Is the xqj cable tray a ladder-type cable tray

Overview

The XQJ-T ladder-type cable tray boasts advantages such as light weight, low cost, unique design, easy installation, good heat dissipation, and breathability. Hot-dip galvanized models: excellent corrosion resistance, impact strength, load-bearing; suitable for indoor/outdoor use. Press-formed for efficiency, easy. Discover reliable and efficient cable tray systems for industrial applications. From solid to perforated and ladder trays, we deliver a complete system—tray sections, fittings, supports, and accessories—matched to your installation. Start with the tray type, then complete the run with fittings. Indicates the specification or specification serial number (marked with Arabic numerals) indicates the category type serial number (indicated with Arabic numerals or English letters) indicates the structural form (in the capital letter of the first Chinese pinyin in Chinese) T is the ladder type, P. XQJ series cable trays are suitable for laying of power cables with voltage below 12KV, control cables, lighting wiring, etc. Also, a ladder tray is part of it. It has horizontal, vertical, straight, reducing, offset bend and different kinds of elbow bend, T-cross, and.
