

# Price of Vertical Cable Tray Installation and Fixing Brackets

## Article Overview

Vertical cable tray fixing brackets are available from around \$0.60 per unit, with prices varying based on material, size, and supplier.

Vertical cable tray brackets, also known as wall or support brackets, are essential for securely mounting cable trays in industrial, commercial, and construction settings. Prices depend on material (galvanized steel, stainless steel, or GRP), load capacity, and coating for corrosion resistance. For example, high-quality galvanized brackets suitable for industrial cable management are listed at approximately \$0.6 per unit on Alibaba, with minimum order quantities of one piece.

### Factors Affecting Price

- **Material and Coating:** Stainless steel or hot-dip galvanized brackets cost more than standard steel due to durability and corrosion resistance.
- **Load Capacity:** Brackets designed to support heavier cable trays or equipment are priced higher. Units like the CADDY® PYRAMID 50 support up to 50 lb loads and are engineered for industrial use.
- **Size and Design:** Width, length, and type (Z-profile, perforated angle, or wall-mounted) influence cost.
- **Supplier and Brand:** Premium brands such as ERICO®, Legrand, or Phoenix Contact may charge more for certified, IEC 61537-compliant brackets.
