

# Prices of galvanized steel cable trays in North Africa

## Article Overview

Galvanized steel cable trays in North Africa typically range from \$15 to \$50 per meter, depending on thickness, type, and finish.

### Overview of Galvanized Steel Cable Trays

Galvanized steel cable trays are widely used for supporting and organizing electrical cables in industrial, commercial, and residential installations. They are available in various types, including ladder trays, perforated trays, mesh trays, and solid-bottom trays, with standard lengths of 2-3 meters and widths ranging from 50mm to 600mm. Thicknesses commonly range from 0.6mm to 3.0mm, with 1.0mm being a standard choice for medium-duty applications.

### Price Factors

- **Material and Finish:**
  - Pre-galvanized (light-duty) trays are less expensive and suitable for mild environments.
  - Hot-dip galvanized (medium to heavy-duty) trays offer higher corrosion resistance and durability, increasing the cost.
- **Tray Type:**
  - Ladder trays and mesh trays are generally more expensive than solid-bottom trays due to better ventilation and load capacity.
  - Perforated trays allow for easier cable fixation and drainage, slightly increasing th...
