

Security four-port information panel IP65

Article Overview

An IP65-rated four-port information panel provides secure, weatherproof access for networking, fiber, or control applications, protecting against dust and water ingress.

Overview

An IP65 four-port panel is designed for environments where protection against dust and water is critical, such as outdoor installations, industrial sites, or building façades. The IP65 rating ensures the enclosure is dust-tight and resistant to water jets, making it suitable for harsh conditions while maintaining secure access to internal connections .

Types and Applications

- Fiber Terminal Boxes
 - Example: HTB8060 4 Ports FTTH Outdoor Fiber Terminal Box.
 - Provides secure termination for feeder cables connecting to drop cables in FTTx networks.
 - Integrates fiber splicing, splitting, and storage within a compact, weatherproof enclosure.
 - Supports optional 1:8 PLC splitters and organized routing paths for pigtailed and patch cords.
 - Ideal for pole, wall, or façade deployments where occasional maintenance is required .
-
- Access Control Panels
 - Example: Avigilon 4-Door Smart Hub....
