

Spectrometer Calibration in El Salvador

Article Overview

El Salvador offers accredited laboratories for spectrometer calibration, including Aragón Valencia y Asociados, Sercal SV, and Abaa Metrología, all providing ISO/IEC 17025-compliant services.

Accredited Calibration Laboratories

Aragón Valencia y Asociados is a leading metrology and calibration laboratory operating in El Salvador, Guatemala, and Honduras. They provide calibration services across more than 80 areas, including spectrometry, with traceability to international standards and compliance with ISO/IEC 17025:2017 and ISO 9001. Their staff includes highly trained engineers, and they offer 24/7 service, consultation, and instrument sales for laboratory and industrial applications. Sercal SV offers calibration services for industrial and laboratory instruments, including spectrometers, using certified reference standards traceable to recognized metrology institutes such as CENAM and LACOMET. Their laboratory is accredited by the Organismo Salvadoreño de Acreditación (OSA) under ISO/IEC 17025, ensuring technical competence and reliable measurement results. Abaa Metrología S.A. de C.V. provides professional calibration services for laboratory instruments, including spectrometers, with a focus on temperature, humidity, and other measurement magnitudes. They are accredited by the Entidad Mexicana de Acreditación (EMA) and maintain specialized facilities with controlled environmental conditions to ensure precise calibration. Their El Salvador branch supports local industries with high-quality metrology services and instrument maintenance.
