

Top 10 Relay Protection After-Sales Service Companies

Article Overview

Leading protective relay manufacturers like ABB, Siemens, and Schneider Electric are recognized for their robust after-sales service networks, ensuring maintenance, technical support, and system reliability worldwide.

Overview

After-sales service in relay protection is critical for maintaining grid stability, minimizing downtime, and ensuring safety in power systems. Top companies combine global service networks, technical expertise, and digital support platforms to provide rapid response, predictive maintenance, and training for utility and industrial clients .

Top 10 Companies

- ABB – Offers extensive after-sales support including remote diagnostics, predictive maintenance, and field service for digital and electromechanical relays globally .
- Siemens – Provides comprehensive service contracts, on-site maintenance, and software updates for protection relays integrated into industrial and utility networks .
- Schneider Electric – Known for global service centers, technical support, and lifecycle management for protective relays and automation systems .
- SEL (Schweitzer Engineering Laboratories) – Specializes in adaptive protection solutions with strong technical support, training, and remote monitoring services .
- OMICRON – Offers testing, commissioning, and after-sales support for digital and numerical relays, including software and hardware maintenance
