

Warranty for Aggregation Switches DML

Article Overview

D-Link aggregation switches typically come with a standard hardware warranty, often covering 1-5 years depending on the model, with support for replacement and technical assistance.

D-Link Warranty Overview

D-Link aggregation switches (DML series) are designed for 1G, 2.5G, and 10G speeds, supporting flexible deployment with copper, fiber, and PoE interfaces, as well as stacking and redundancy features. While the exact warranty period for DML switches is not explicitly listed in the provided sources, D-Link generally offers limited hardware warranties that cover defects in materials and workmanship. These warranties often include:

- Hardware coverage for the switch chassis and internal components.
- Replacement services for defective units, sometimes including next-business-day (NBD) replacement depending on the service plan.
- Technical support for configuration, troubleshooting, and firmware updates.

Comparison with Other Vendors

For context, other aggregation switch vendors provide the following warranty structures:

- Juniper EX4600/EX4650 series: Limited lifetime warranty on hardware (ends 5 years after end-of-sale), 5-year coverage for power supplies and fans, next-business-day r...
